PROFESSIONAL SUMMARY

Assistant Lead Engineer and product-focused software professional with 5+ years of experience designing, scaling, and modernizing high-throughput distributed systems used by millions of users. Experienced in leading cross-functional engineering initiatives, mentoring teams, driving architectural decisions, and delivering scalable, resilient, and cost-effective solutions aligned with business goals. Strong background in backend engineering and microservices, cloud-native systems, and distributed systems design. Passionate about technical leadership, engineering excellence, and building high-impact products that improve reliability, scalability, and customer experience.

WORK EXPERIENCE

bKash Ltd.

Tech Stack: Java, Golang, Spring Boot, Gin, AWS AuroraDB (PostgreSQL), Redis, AWS DynamoDB, Git, Docker, Kubernetes, AWS.

Assistant Lead Engineer

January 2026 – Present | Dhaka, Bangladesh

- Leading development of new microservice-based business platforms using Spring Boot, Gin, and AWS AuroraDB while ensuring **high-quality** and **timely delivery** through collaboration with cross-functional teams.
- Driving technical planning, architecture decisions, and execution for **business-critical initiatives** serving millions of customers and also align with **organizational goals** and **customer needs**.
- Managing and mentoring a team of **15+** engineers, facilitating technical discussions, and contributing to engineering **hiring**. Achieving **10%** improvement in team delivery velocity and a **30%** reduction in onboarding time for new joiners.

Senior Software Engineer

May 2023 – December 2025 | Dhaka, Bangladesh

- Led a large-scale modernization of the legacy payment infrastructure, boosting system performance by **500%** and reducing operational costs by **60%** through architectural improvements.
- Spearheaded microservices adoption using Spring Boot and AWS DynamoDB accelerating the features release cycle by **200%**.
- Initiated and delivered infrastructure and application-level improvements partnered with DevOps that increased system reliability by **5%** and reduced customer-facing errors by **2%**.
- Played a key role in hiring **20+** engineers and regularly presented technical updates and strategic proposals to the VP of Engineering.

Astha IT

Tech Stack: C#, .NET, PostgreSQL, Redis, Angular, Next.js, React.js, Git, Docker, Kubernetes, AWS.

Software Engineer - II

March 2022 – May 2023 | Dhaka, Bangladesh

- Led the development of key modules for enterprise applications using .NET (C#), PostgreSQL, and Next.js, improving response times by **15%** and lowering infrastructure cost by **20–30%**. Architected and delivered an application from **Proof of Concept (POC)** to **Production Rollout**.
- Collaborated with stakeholders, product teams, and QA engineers to translate complex business requirements into maintainable and scalable technical solutions, reducing feature delivery time by **20%** and boosting maintainability as reflected by **25%** fewer technical debt tickets over two quarters.
- Mentored **5+** junior engineers through regular code reviews, architecture discussions, and engineering best practices, contributing to improved code quality, leading to a **30%** improvement in code quality (measured by reduced review cycle time and fewer post-deployment issues).

- Contributed to technical decision-making, troubleshooting production issues, and improving overall development lifecycle efficiency by **15-20%** by implementing **CI/CD** across multiple projects.

Software Engineer - I

March 2021 – February 2022 | Dhaka, Bangladesh

- Implemented new features and resolved production issues within tight deadlines, contributing to improved **client satisfaction** and continued **business engagement**. Contributed to both **backend and frontend** development for enterprise applications using C#, .NET, PostgreSQL, and JavaScript-based frontend technologies like: Angular, React.js, Next.js.
- Optimized existing application modules by improving caching and algorithm by **10%** to improve system stability and user experience.
- Participated in implementation, code reviews, sprint planning, testing, and deployment activities within **agile** development teams.

TECHNICAL SKILLS & TOOLS

- | | | |
|------------------|---|--|
| • Languages | : | Java, Golang, C#, C++, C, Python, JavaScript, TypeScript |
| • Frameworks | : | Spring Boot, Gin, .NET, Django, React.js, Next.js, Angular |
| • Databases | : | PostgreSQL, MySQL, AWS DynamoDB, Redis |
| • Tools & DevOps | : | Git, GitHub/Bitbucket/GitLab, Docker, CI/CD, AWS, Kubernetes |
| • Others | : | Software Architecture, Distributed System Design, OOP Design Patterns, Apache Kafka, DSA, Clean Code, Reactive Programming |

PROJECTS

- **bKash PGW**: Architected a high-throughput payment gateway for bKash online merchants and customers that processes millions of transactions daily using Java, Spring Boot, AWS, and DynamoDB.
- **RLDataCoach**: While working at Astha IT, built an AI-powered analytics platform for Rocket League players, offering coaching insights based on in-game metrics using C#, .NET, AWS, and PostgreSQL.
- **SumoSum**: Designed a forecasting engine for small to medium businesses to model cash flow and expenses based on user input.
- **Stripe Integration**: Engineered secure payment workflows with Stripe API in Spring Boot Webflux, integrated with a modular microservice backend.

EDUCATION

B.Sc. in Computer Science & Engineering (CSE)

National University, Dhaka, Bangladesh | 2017–2021

CGPA: **3.51** / 4.00.

COMPETITIVE PROGRAMMING

- Participated in ACM ICPC Dhaka Regional Onsite Contest.
- Participated in **2** NCPC and **10+** IUPC contests.
- Regularly practice problem-solving on online judges.

ADDITIONAL INFORMATION

- Write and share technical **blogs** to give back to the IT community.
- Awarded for hitting **1st** position in the merit list.
- **Champion** Intra University Programming contest.
- **Joint Secretary** of the “Programming Club of IST” committee.
- **Interests**: Reading, writing blogs, problem solving, teaching & mentoring, travelling.
